24-Port Cat.6$_A$ Keystone Patch Panel - Shielded

769324

The equip® Patch Panel is a 19" 1U network distribution unit integrating cable management system for better routing and strain relief requirements. The staggered arrangement is designed to reduce the interference and to eliminate alien crosstalk. Featuring 24 ports, this patch panel is recommended to connect with equip® shielded keystone jacks and cables to achieve outstanding 10G Ethernet performance. Moreover, each port is marked with port number for easy recognition.

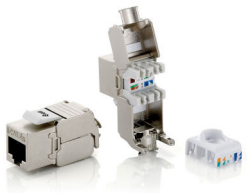
Specification

Form Factor	19” 1U
Port Capacity	24 Ports
Dimension	482.6 x 43.6 x 92.7mm
Weight	634g
Color	Black
Material	SPCC
Ground Cable	18 AWG Wire, 40cm

Work Well With



Cat.6$_A$ Shielded Keystone Jack

767121

Cat.6$_A$ Shielded Keystone Inline Coupler

125496
